The VS welcomes particularly:

- President des CTIF Tore Eriksson
- Vicepresident Zdenek Nytra
- Vicepresident Milan Dubravac

Switzerland will present the host for the Youth-Gathering 2019.

chairman:

- Thank you for the presentation of the Swiss delegation
- The conditions in Switzerland are optimal, chairman was convincing
- Prices should be at a normal level
- Accommodation in a school

2 Interim conclusion of Villach

chairman:

- for the first time together with the adults under the responsibility of the chairman
- Youth program can not be easily integrated
- campolympics started too early after the competition, maybe another day
- The organizers did a very good job
- Stadium well developed
- good PR for the event
- Supply was well organized
- 250 helpers every day, well coordinated
- Registration process was not yet optimal - optimization need

- The core of the event is the youth meeting
- Training conditions were optimal in the barracks despite the distance
- an evaluation will be carried out at the October meeting

3 Competition Villach

Ignaz Mascha

- 59 groups started from 24 nations (record)
 - o 18 girls groups (Opole 9)
 - o 4 international groups
- 2017 11% less error than 2015
 - o unter Berücksichtigung der Gruppenanzahl 14%
 - o taking into account the number of groups 14%
- 4 participants under 12 year
 - o An objection was inserted during the relay run
 - o Error when ladder descends (do not enter rung)
 - Delegation indicated that the runner was distracted and hampered by external circumstances (Cameraman and moderator)
 - After submitting a photo and viewing a video sequence, it could be determined that the applicant had entered the rung.
 - The opposition was granted
 - o Meeting with the international competition committee
 - different opinions on handling
 - Ignaz Masha was unable to decide against the candidate because of the unambiguousness
 - in particular in the interest of the children, the decision was made in this way
 - o Questions of the commission:
 - France: why were the French the site were not contacted? They were right there
 - Ignaz Mascha: only the evaluators are responsible
 - France: whole group has worked on evaluators
 - Ignaz Mascha: the emotions cook naturally high, one must understand
 - France: You have to ask questions about the regulations and the behavior in the future. Does a photographer need to be parked at every obstacle? From whom does the arbitration sit?
 - Vizepräsident Nytra: Ignaz Mascha is entitled to make the decision. But he hopes that the competence of Hr. Nytra is acknowledged. It should not occur in this form in the future. The external circumstances should be controlled by the organizer. How many mistakes have been canceled due to the presence of camera phones? To the specific case: the contact happens in a fraction of a second (only in slow motion). The evaluator has no chance to see the error. Why is it considered an error if it is not recognizable. The evaluators were not involved in the reconnaissance. According to this interpretation, each Cameraman becomes an evaluator. Not clear from which source the photo comes from. Mr. Nytra has not yet seen the photo. Is it a photo or part of a video recording? Obviously, only this one error was judged by video.
 - o

The decision was in the competence of Mr. Masha, but was wrong in terms of content because it was said here that the evaluators on the train made no mistake and their decision was nevertheless changed.

- Russia: would like to recall discussion between Russia and Croatia; Suggestion video was rejected in the past. Manipulation nowadays easily possible. Critical points should generally be observed with video.
- Ignaz Mascha: The judges for the descent on the obstacle was interviewed and confirmed that he had seen a mistake. The photo was taken after 5 minutes - manipulation is not possible. Obviously from the competition and not from the training. Photo was checked with own technique.
- Russia: Reminded of 2011 - Evidence was not allowed
- Ignaz Mascha: In the competition rules 2012 - Videoproof was excluded, photo not
- Vicepresident Nytra: They make fun of us. What is the difference between a photo and a video? This is word clever.
- Russia: According to the standards / codes, photos and videos are the same. Precise standards should be established (automatic photos) and only these recordings should be permitted.
- Frankreich: French rules allow video playback. 3 people are entitled to make video recordings. The complete athlete is visible. A complaints committee meets (6 people from 6 countries) and decides.
- Vicepresident Nytra: Discussion should be terminated. Disagree with decision. Video recordings are not only a problem for the youth. Also observed during deletion. It will work to ensure that the regulations are adapted in such a way as to regulate provisions 2019. Proposal: Panel should be formed or a representative from another nation should be involved in decision.
- Ignaz Mascha: Proposal: Working Group for the adjustment of the regulations. The times that have gone today are much faster and harder to judge. The next competition in Switzerland should take place according to updated rules. The working group should also involve representatives from the sports and traditional sectors.
- Slovenia: The evaluator was sure that a mistake was made. Video and photo were not allowed. Slovenia is disappointed. Rules were interpreted differently by different evaluators. The real mistake lies with Ignaz Mascha. In case of repetition, Slovenia will no longer provide any evaluators. There are bad memories and consequences are expected.
- Italy: Video and photos should not be allowed. Clear rules must be laid down in the provisions. The decisions of the evaluators should be valued more or we need automatic systems.
- Luxembourg: What do we make of our competition? We have a youth meeting. What do we want to teach the young people? With the use of all possible means, the youthful fun comes into the background.

- chairman: There is a gap between professional sport and youth work. The next meeting will require a lot of time to discuss the different aspects. Where should the development go? The Commission has always had a fair deal with the Commission and a solution should be sought. A working group should be set up, including adults. Decisions should be made in such a way that the appearance of bias does not arise. 2018 a solution must be found. The core is about young people with fun at the fire brigade. Even tough decisions are part of the sport. An opinion should be formed in the nations so that it can be discussed in Luxembourg.
- Great Britain: The ideas should be exchanged by September
- Vicepresident Nytra: All sporting areas are affected and they should be in the Commission. A video will not solve all the problems. In the World Cup, there are only two video recordings. A complete monitoring will hardly be possible and is also not necessary.
- Luxembourg: Why do not we stay with facts?
- chairman: Thanks for stating the opinions. The opinions of the nations should be sent to the chairman by 01.10.2017.
